Quote of the Week

"Everyone has a 'risk muscle.' You keep it in shape by trying new things. If you don't, it atrophies. Make a point of using it at least once a day."

- Roger Von Oech

Are you getting bored with the same old routine? Are you sick of eating carrots and celery every day? If you find yourself answering yes to these questions, it's time to mix things up and try new things!

Instead of going to the gym every day, work in a few outdoor activities like playing basketball, sand volleyball, or walking/biking your local trails with family or friends. It's great to have a routine to follow, but make sure not to burn yourself out.

Sick of eating the same thing day after day? There are so many different fruits, vegetables, and healthy foods out there to eat. The next time you go to the store pick up pears instead of apples or pineapple instead of bananas. Try something new! Visit the Live Healthy America [recipe center](#) or [Culinary.net](#) to view new recipe ideas to spice things up!

Change your choices. Change your life!
